

Fred Hohman

Data science + *visualization* researcher

I'm a Ph.D. student studying Computational Science and Engineering at Georgia Tech advised by Polo Chau and Alex Endert.

My research applies a human-centered approach to designing and developing interactive interfaces that help people understand and explain **machine learning models**. I also write, design, and build explorable explanations, dynamic expositions, and **interactive data visualizations** that illustrate complex ideas simply and tangibly.

I have worked at Apple, Microsoft Research, NASA Jet Propulsion Lab, and Pacific Northwest National Lab.

In 2018 I received the NASA Space Technology Research Fellowship.
