

Fred Hohman

Data science + visualization researcher

My research applies a *human-centered approach* to designing and developing interactive interfaces that help people understand and explain **machine learning models**. I also write, design, and build explorable explanations and **interactive data visualizations** to simply communicate complex ideas.

I have collaborated with researchers, designers, developers, and artists while working at Apple, Microsoft Research, NASA Jet Propulsion Lab, and Pacific Northwest National Lab.

My research is supported by a NASA Space Technology Research Fellowship.
